

CIS 497/498 Senior Project  
Team: Team Fourheads  
USA Archaeology Museum Virtual Exhibit Website

We will be designing a website for the University of South Alabama's Archaeology Museum using the University's Content Management System. This website will be used as an in-depth guide for museum patrons during the tour.

The problem at hand is that the museum does not have an official web presence that provides information during the museum tours.

**Harrison Sawyer**

Bachelor of Science, Information Technology  
— Digital Forensics/Networking

Harrison Sawyer has been on a managed internship team at Ingalls Shipbuilding for the past 18 months. When he is not working or completing his scholarly duties, he enjoys working out and kickboxing.

**William Vaughn**

Bachelor of Science, Information Systems  
Digital Forensics

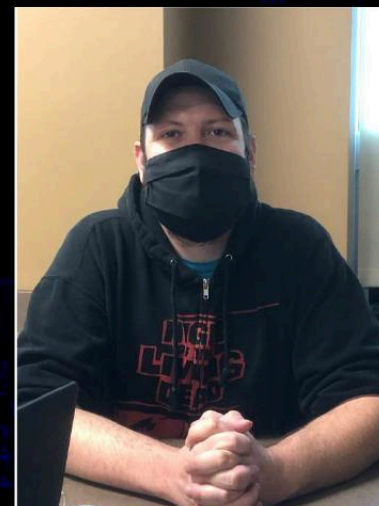

William "Will" Vaughn has worked as a waiter at "Fuego" throughout his college career. When he has the time, Will likes to travel to scenic locations.

**Eric Nguyen**

Bachelor of Science, Information Technology  
Networking

Eric Nguyen works as an IT Technician at Turner Supply Company. Eric enjoys learning more about different ways he can use Linux.

**Jacob Barton**

Bachelor of Science, Information Technology  
Web Publishing/Networking

Jacob Barton is a prior service member who later came to The University of South Alabama to pursue a career in Computing. When he is not busy, he enjoys 3-D Printing and making video games.

Client: Jennifer Knutson, Archaeology Museum Curator  
Mentor: Kelly Rushing, Assistant Manager of Web Services
